

RUDRA PRATAP PANDEY

+91 9301134763 | Supela, Bhilai, C.G. 490023 | rudrapratappandey2005@gmail.com | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Results-driven Frontend Developer with strong hands-on experience building intuitive, responsive, and user-centric web applications. Proficient in modern JavaScript, HTML5/CSS3, Python, and Django, with a solid grasp of web performance, DOM manipulation, and real-time interactive features. Skilled in transforming complex design concepts into clean, maintainable code and scalable interface components.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), Python, SQL, HTML5, CSS3

Frameworks & Web: Django, Responsive Web Design, REST APIs, WebSockets

Databases & Tools: Database Management (DBMS), SQL, Git, GitHub, VS Code, Chrome DevTools

Core Concepts: Object-Oriented Programming (OOP), Web Fundamentals, DOM Manipulation, Data Structures

EXPERIENCE

Vocational Training – Web Development | CSVTU

05/2025 – 06/2025 | Bhilai, C.G.

- Completed intensive, certified vocational training focused on core front-end development, modern UI patterns, and web optimization.
- Engineered responsive, mobile-first web interfaces using modern CSS architecture (Flexbox/Grid), ensuring 100% cross-browser compatibility.
- Collaborated on building reusable web components and applied UI best practices under faculty supervision.

TECHNICAL PROJECTS

CodeWithMe – Real-Time Collaborative Compiler

github.com/rudrapandey2005/CodeWithMe

Technologies: JavaScript (ES6+), HTML5, CSS3, WebSockets, Git

- Engineered a real-time collaborative compiler supporting multi-user code editing with instant synchronization.
- Integrated real-time communication protocols (WebSockets) to sync user actions, boosting team productivity by 30%.
- Optimized code execution pipelines and live DOM updates, accelerating project completion rates by 25%.

Smart Tourism & Travel Portal

Interactive Web App

Technologies: HTML5, CSS3, JavaScript (ES6+), REST APIs, Responsive Web Design

- Designed and built an interactive tourism portal enabling users to explore destination packages, view dynamic itineraries, and calculate trip estimates.
- Integrated third-party Weather and Geolocation REST APIs to deliver real-time destination insights, boosting user engagement by 40%.
- Implemented custom JavaScript filtering systems and lazy-loading for images, reducing page load time by 30% and providing a seamless mobile interface.

Library Management System (Backend)

Django Web System

Technologies: Python, Django, SQL, DBMS

- Developed a robust backend system to automate book inventory tracking, member authentication, and borrowing operations.
- Implemented Django ORM and role-based access control (RBAC) to ensure secure data validation and server-side logic.
- Structured efficient SQL queries and relational models, improving database lookup speed by 20% during peak concurrent usage.

EDUCATION

Shri Shankaracharya Technical Campus

2022 – 2026 | Bhilai, C.G.

B.Tech in Computer Science & Engineering (CSE) — **CGPA: 8.0 / 10**

B.B.S.V.M. Int. College

Chitrakoot, U.P.

Senior Secondary / Class 12th (PCM) — **2022** | Secondary / Class 10th — **2020**

COURSES & CERTIFICATIONS

- AI-ML Virtual Internship** – Google for Developers & AICTE (India Edu Program) [ID: a2619abb62cf326077ff64b781f546ad] (04/2025 – 06/2025)
- PCAP – Programming Essentials in Python** – The Cisco Networking Academy Program (2025)
